Accepted: 4 September 2023
Published online: 14 September 2023

The Editors in Chief have retracted this article. After publication, concerns were raised about multiple images that appear to overlap with previously-published works, namely:

Figure 6a overlaps with Figure 9C from [1].

Figure 6a overlaps with Figure 2I from [2].

Figure 6a overlaps with Figure 8A from [3].

Figure 5c and d overlap with Figure 1R from [4].

Figure 6c overlaps with Figure 5G from [5].

Figures 3g and 4g overlap with Figures 4L, 4M, 6L and 6M from [6].

Supplementary Figure S2A overlaps with Figure 4C from [7].

Supplementary Figure S2A overlaps with Figure 5A from [8].

The authors have stated that they had used third-party services that provided them with data, Therefore, the Editors in Chief have lost confidence in the findings of this paper. All authors agree to this retraction.

The online version of the original article can be found at <https://doi.org/10.1186/s12935-021-01885-0>.
