Retraction Note to: Cancer Cell Int (2019) 19:75 https://doi.org/10.1186/s12935-019-0791-4

The Editors-in-Chief retracted this article because of concerns regarding a number of figures presented in this work. These concerns call into question the article's overall scientific soundness. An investigation conducted after its publication discovered similarities between images in this work:

- The panel labelled sh-control in Fig. 3C overlaps with the panel labelled sh-control in Fig. 3D, after a 90° rotation.
- The Beta-actin band in Fig. 4G overlaps with a portion of the Beta-actin band in Fig. 2G, after a horizontal flip and a change in scale.

The Editors-in-Chief therefore no longer have confidence in the integrity of the research presented in this article. The authors have not replied to correspondence from the Publisher.
